EDUCATION

Dr Akhilesh Das Gupta Institute Of Professional Studies <i>B-Tech in Computer Science and Technology</i>	Aug 2023–Expected 2027 <i>CGPA:9.5</i>
--	--

EXPERIENCE

United Business Solution <i>Web Development Intern</i>	July 2025 – Aug 2025 <i>Gurgaon, India</i>
--	--

- Worked on **responsive web development** tasks using modern frontend technologies and reusable UI components.
- Assisted in **UI enhancement**, **bug fixing**, and improving website responsiveness for better user experience.
- Gained hands-on exposure to **HTML**, **CSS**, **JavaScript**, **React.js**, and real-world development workflows.
- Collaborated with team members on feature implementation while strengthening **problem-solving** and **teamwork** skills.

TechVision Digital <i>Full Stack Development Intern (Remote)</i>	May 2026 – Present <i>Remote</i>
--	--

- Developing and maintaining **WordPress websites** using **HTML**, **CSS**, **JavaScript**, and **PHP**.
- Customizing themes/plugins and deploying websites on **Hostinger** and VPS servers.
- Optimizing websites for **SEO**, **speed**, **performance**, and **user experience**.

PROJECTS

AI Career Coach — SensAI Link	May 2025 – June 2025
--	-----------------------------

- Engineered a full-stack **AI-powered career platform** using **React** and **Next.js**, delivering real-time resume reviews and interview insights.
- Integrated **Google Gemini API** for **context-aware**, **role-specific recommendations**.
- Designed scalable backend using **Prisma ORM** and **PostgreSQL (NeonDB)** for efficient data handling.

StayHub — Travel Accommodation Platform Link	March 2025 – June 2025
---	-------------------------------

- Developed a full-stack travel accommodation platform enabling end-to-end booking workflows and enhanced user interaction.
- Architected a scalable backend using **Node.js** and **Express.js**, optimizing API performance and request handling.
- Designed robust data models using **MongoDB (Mongoose)** ensuring efficient schema design and data consistency.

VibeMate — AI Roommate Matching System (<i>Top 5 Hackathon Finalist</i>) Code	Oct 2025 – Nov 2025
--	----------------------------

- Designed and implemented a **weight-based matching algorithm** to evaluate user compatibility and generate personalized roommate recommendations.
- Built backend logic to compute compatibility scores and generate personalized roommate recommendations .
- Integrated **Omnidimension API** for voice-based data collection, enabling interactive user profiling.

Technical Skills

- **Languages:** Java, Python, JavaScript, HTML, CSS
- **Frontend:** React, Next.js, Bootstrap
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, PostgreSQL
- **Tools:** Git, GitHub, Vercel
- **CS Fundamentals:** Data Structures and Algorithms, OOP, Computer Networks, Operating System

Achievements & Certifications

- * **Amazon Future Engineer (AFE) Scholar** — Selected among **40,000+ applicants** for a competitive scholarship program supporting **women in tech**; completed a 10-month intensive program in **Java and Data Structures & Algorithms**. [Certificate](#)
- * **Top 10 Finalist — GDG Solution Challenge** — Recognized for building an **AI-based solution** addressing real-world problems as part of Google Developer Groups initiative. [Certificate](#)
- * **Generative AI with AWS (Udacity)** — Gained hands-on experience with **AWS Bedrock, SageMaker**, and deployment of AI-driven applications. [Certificate](#)
- * **Aspire Leaders Program (Aspire Institute, Harvard-backed)** — Completed leadership program focused on **problem-solving, communication, and global leadership**. [Certificate](#)
